

The PURC’s responsibility as outlined in the Electricity Act of 2016 (as amended) includes the assessment and establishment of rates charged by a network licensee (Grenlec) to consumers and ensuring that these rates are fair and reasonable for consumers. Effective October 1st, 2023 an Interim Tariff was introduced and will remain in effect until a new Tariff has been finalized after assessments. A series of public informative sessions have been scheduled to facilitate a better understanding on the Interim Tariff, how it is calculated and how it affects your Grenlec bill.
